

Iuniia 'Yun' Pakhomova | Full Stack Software Engineer

New York, NY | yuniya.pa98@gmail.com | [GitHub](#) | [Portfolio](#) | [LinkedIn](#)

Model turned Software Engineer with a passion for graphic design and problem solving. I love challenges, creating a plan and strategic goals, and reaching a destination. In team settings, I bring passion, vision, motivation, and a strong sense of organization and structure.

TECHNICAL SKILLS

- **Programming Languages:** HTML, CSS, JS, React, Python3, Vue.js
- **Frameworks and Libraries:** Node.js, Express, Mongoose
- **Database:** MongoDB, PostgreSQL, Django
- **Tools/Other:** GitHub, RESTful APIs, MERN, PERN

RELEVANT EXPERIENCE

Software Engineering Immersive Fellow | General Assembly | Remote | June 2022 – September 2022

Completed 500+ hours of instruction in JavaScript, Python, MongoDB, Node, React, and hands-on learning of web and mobile application fundamentals. **Engineering Projects:**

- **Maze Game: 'Sweet pea'** [[GitHub Repository](#)] [[Link](#)] Built with vanilla JavaScript, HTML and CSS. Game features an animated character named 'Pea' which moves using arrow buttons in 3 game levels. To win a game, the player must move through a Maze and cannot hit the wall; a hit will take one life away.
- **Gardening App: 'My Garden'** [[GitHub Repository](#)] [[Link](#)] Built using MERN and full CRUD. Gardening App that allows users to find information about plants and how to care for gardens. Includes built-in search bar to find the right plant. Function for companion planting which allows users to see plant compatibility. User adds plant to the cart and makes a chart for companion plants
- **'Quizards': Group Project** [[GitHub Frontend](#)] [[Link](#)] Built using PERN. Flash card study app, with easy authentication system and user design. Allows users to create a card library and take a quiz to check knowledge. Full CRUD on cards page, to create, update, delete cards from the library.
- **Social-media book app: 'Pocket Library'** [[GitHub Frontend](#)] [[GitHub Backend](#)] [[Deployed Link](#)] Built using PERN. Library social media app, where user finds/follows friends, view libraries and reviews, searches for books. Built using API 'GoogleBooks. Using full CRUD operations on review, users can rate books. Includes simple user settings to change password/update user information such as profile picture and username. User can try the app by login as email: user@test.com; password: user1234

Fashion Industry, Model | New York, NY | September 2016 – 2022
