Iuniia 'Yun' Pakhomova

Full Stack Software Engineer

New York, NY | Phone | Email | [GitHub](#) | Portfolio | [LinkedIn](#)

Model turned Software Engineer with a passion for graphic design and problem solving. I love challenges, creating a plan and strategic goals, and reaching a destination. In team settings, I bring passion, vision, motivation, and a strong sense of organization and structure.

SKILLS

- **Programming Languages:** HTML, CSS, JS, React, Python3, Vue.js
- **Frameworks and Libraries:** Node.js, Express, Mongoose
- **Database:** MongoDB, PostgreSQL, Django
- **Tools/Other:** GitHub, RESTful APIs, MERN, PERN

RELEVANT EXPERIENCE

Software Engineering Immersive Fellow | General Assembly | Remote | June 2022 – September 2022
Completed 500+ hours of expert-led instruction in JavaScript, Python, MongoDB, Node, React, and hands-on learning of web and mobile application fundamentals using the industry's most in-demand technologies. **Engineering projects:**

- **Maze Game: 'Sweet pea'** [[GitHub Repository](#)] [[Link](#)] Built with vanilla JavaScript, HTML and CSS. Game with animated character named 'Pea', that moves using arrow buttons, has 3 levels and live bar. To win a game you have to move through Maze and don't hit the wall, each hit will take one live away.
- **Gardening App: 'My Garden'** [[GitHub Repository](#)] [Link] Built using MERN. Gardening App that allows you to find any sort of information about plants and how to care about garden, has a built in search bar to find right plant. Function for companion planting that allows you to see what would be best planted with each other, using full CRUD you can add plant to the cart and make a chart for companion plants out of your cart .
- **'Quizards': group project** [[GitHub Frontend](#)] [[Link](#)] Built using PERN. Flash card study app, with easy authentication system and user design. Allows you to create your own card library and take a quiz to check your knowledge. Full CRUD on cards page, to create, update, delete your cards from the library.
- **Social-media book app: 'Pocket Library'** [[GitHub Frontend](#)][[GitHub Backend](#)] [[Deployed Link](#)] Built using PERN. Library social media app, where you can find your friends, follow them, see your friends libraries and reviews, search for any book, built using third-party API 'GoogleBooks', create and add them to the libraries, using full CRUD operations on review you can rate books, includes simple user settings to change password and update user information like profile picture and username. You can try my app by login as email: user@test.com password: user1234

Fashion Industry, Model | New York, NY | September 2016 – 2022
